PEEL HERE TO OPEN (PRESS TO RESEAL) ▲

GRANDSLAM WEED & GRASS KILLER IS:

- A fast-acting, ready-to-use product that effectively kills unwanted weeds, vines and brush - roots and all.
- Can be used on and around walkways, driveways & patios, in flower beds, vegetable & herb gardens and around fences, buildings, trees & shrubs.
- Controls hard-to-kill weeds such as poison ivy, poison oak & blackberry.

HOW IT WORKS

GRANDSLAM WEED & GRASS KILLER is a nonselective systemic herbicide that is absorbed by plants through the leaves and then moves into the root system, killing weeds by inhibiting the ability to produce amino acids necessary for the plants survival. Excess product that is not absorbed by the plant breaks down into natural materials which will not move into or on the soil to desirable plants. Weeds will yellow and wilt within hours and will be completely killed in 1 to 2 weeks.

HOW TO USE

Shake well before using.

For best results, apply to actively growing weeds. Apply on sunny days with daytime temperatures above 60 °F. Rain or watering 2 hours after application will not wash away effectiveness. Adjust nozzle to a coarse spray. Spray the weeds or grasses you want to kill until thoroughly wet but not dripping.

Note: To protect desirable plants from contact with this product, use a piece of cardboard or plastic.

Keep children and pets off treated areas until spray has dried.

IMPORTANT

- Apply when wind is calm.
- **GRANDSLAM WEED & GRASS KILLER** will kill or injure all green vegetation contacted. If a desirable plant is accidentally sprayed, immediately rinse it off with plenty of water.
- Keep people and pets off treated areas until spray has dried to avoid tracking the product onto desirable plants (such as lawns).
- This product is not recommended for spot weed control in lawns since it also kills lawn grasses.

All ornamental flowers, trees & shrubs may be planted 1 day after application.

KILLS

Bahiagrass, Barnyardgrass, Bermudagrass, Blackberry, Canada Thistle, Chickweed, Common Ragweed, Crabgrass, Dandelion, Fescue Grass, Field Bindweed, Field Sandbur, Foxtail, Johnsongrass, Kudzu, Lambsquarter, Orchardgrass, Ryegrass, Poison Ivy, Poison Oak, Quackgrass, Red Clover, Shepardspurse, Bromegrass, Sowthistle, White Clover, Nutsedge, Zoysiagrass or Japanese Lawnglass and many other weeds.
